Maintenance and cleaning.

GB

It is always better to remove marks as soon as possible, using water, mild cleaner and a sponge. In most cases, your O-Terrace deck can be cleaned with just high pressure cleaner combined, if necessary, with mild cleaning product. For foodmarks (ketchup, wine, soup, fruit juice, cola, coffee, tea, ...) scrub well with diluted bleach solution, then rinse with large quantity of water.

O-Clean cleaner is appropriate for most of oily marks, butter, silicone and glues.

For more information, please contact your retailer or visit our website www.twinson.com.

NL

Onderhoud en reinigbaarheid

Het is raadzaam om vlekken van gelijk welke aard steeds zo snel mogelijk te verwijderen met water, een mild reinigingsproduct en een spons. In de meeste gevallen is je O-Terrace terras al proper met enkel een hogedrukreiniger eventueel in combinatie met een mild reinigingsproduct.

Voor voedselvlekken (ketchup, wijn, soep, fruitsap, cola, koffie, thee, ...) gebruik een verdunde bleekwateroplossing, goed schrobben en daarna overvloedig afspoelen met water.

O-Clean reinigingsproduct kan gebruikt worden voor de meeste olievlekken, boter, silicone en lijm.

Contacteer je verdeler voor meer informatie of surf naar onze website www.twinson.com.

F

Entretien et nettoyage

Il est toujours conseillé d'éliminer les taches de quelque nature que ce soit le plus rapidement possible avec de l'eau, un détergent doux et une éponge. Dans la plupart des cas, votre terrasse peut être nettoyée avec simplement un nettoyeur haute pression, éventuellement en combinaison avec un détergent doux.

Pour les taches d'alimentation (le ketchup, le vin, la soupe, le jus de fruits, le cola, le café, le thé, ...) frottez énergiquement avec de l'eau de javel diluée et rincez ensuite abondamment à l'eau.

Le détergent O-Clean peut être appliqué pour la plupart des taches d'huile, le beurre, la silicone et la colle.

Pour plus amples informations, veuillez contacter votre distributeur ou visitez notre site www.twinson.com.

DE

Wartung und Reinigung

Es ist von Vorteil, Flecken so rasch wie möglich zu entfernen. Das kann mit Wasser, einem milden Reinigungsmittel und einem Schwamm geschehen. Ihre O-Terrace Terrasse kann in den meisten Fällen nur mit einem Hochdruckreiniger, eventuell zusammen mit einem milden Reinigungsmittel, gereinigt werden.

Für Nahrungsflecken (Ketchup, Wein, Suppe, Fruchtsaft, Cola, Kaffee, Tee, ...) nehmen Sie eine verdünnte Chlorwasserlösung. Gut schrubben und dann ausgiebig mit Wasser abspülen.

Der O-Clean Reiniger ist für die meisten Ölflecken, Butter, Silikon und Kleber geeignet. Für weitere

Informationen kontaktieren Sie bitte Ihren zuständigen Außendienstmitarbeiter oder besuchen Sie unsere Website www.twinson.com.

Preparation of installation

Option 1: with P9552

If drainage cannot be guaranteed: split the supports.
 Als drainage niet kan worden gegarandeerd: de ligger splitsen.
 Si l'évacuation ne peut être garantie: partitionner les supports.
 Ist eine Drainage nicht gewährleistet, bitte die Unterkonstruktion aufteilen.

Preparation of installation

- 
GB Always use min. 3 pieces of P 9552!
NL Gebruik altijd min. 3 stuks P 9552!
F Utilisez toujours au min. 3 pièces du P 9552!
DE Immer 3 Stück P 9552 verwenden!

Option 2: alternative structure

- 
GB For all applications where P 9552 can't be fully supported, use a solid structure in other material (e.g. wood, metal, ...).
NL Voor alle toepassingen waar P 9552 niet volledig ondersteund is, dient men een solide structuur in een ander materiaal te gebruiken (vb. hout, metaal, ...).
F Pour toutes applications où l'on ne peut supporter complètement le P 9552, utilisez une structure rigide dans un autre matériau (e.g. le bois, le métal, ...).
DE Bei allen Anwendungen, bei denen P 9552 nicht vollständig aufliegt, muss eine solide Unterkonstruktion aus einem anderen Werkstoff (Holz, Metall, ...) verwendet werden.

Dilatation P9555

Basic rule: 3mm per linear metre

- GB If a dilatation of at least 3mm/m cannot be guaranteed then you need to subdivide the planks into different modules and/or use the P9543 profile.
- NL Als er geen uitzetting van tenminste 3mm/m kan gegarandeerd worden, dan moet je de planken in verschillende modules opdelen en/of P 9543 gebruiken
- F Si une dilatation d'un minimum de 3mm/m ne peut être garantie, il faudra adapter les dimensions de vos planches et/ou utiliser le profilé P9543
- DE Wenn eine Ausdehnung von mindestens 3 mm/m nicht gewährleistet werden kann, müssen die Profile in verschiedene Längen aufgeteilt und/oder P 9543 verwendet werden.

1. Between the planks

Linear: 10mm

2. Between wall and plank

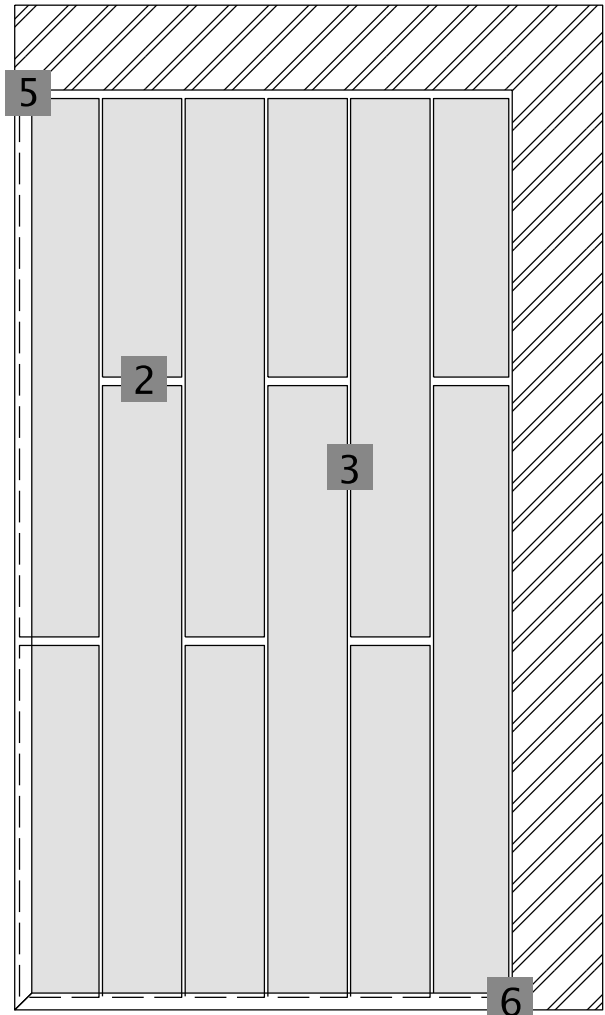

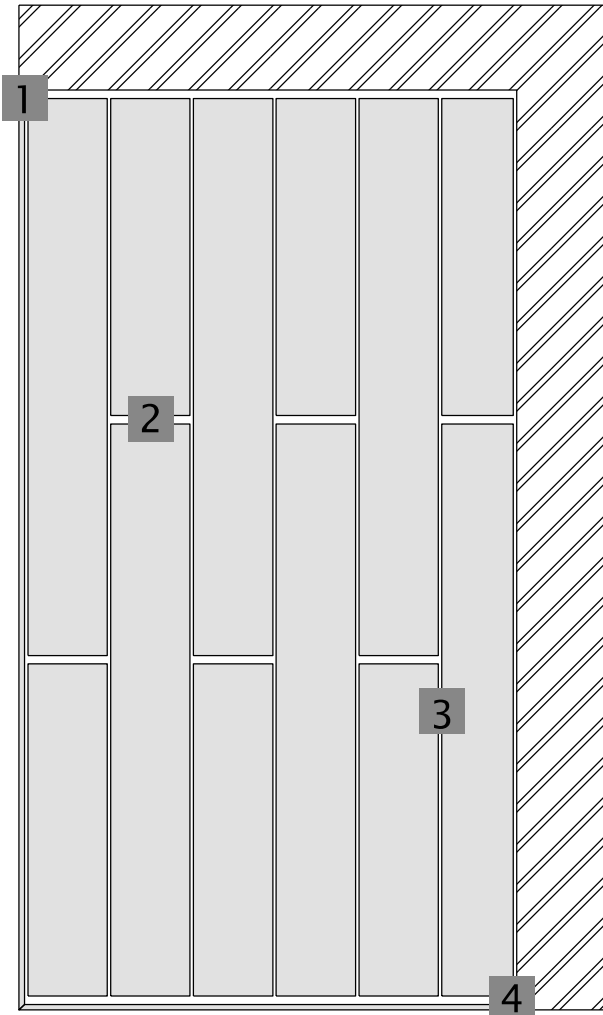

3. Between plank and plint
